Documentation

The PHP Manual is available online in a selection of languages. Please pick a language from the list below.

More information about php.net URL shortcuts by visiting our URL howto page.

Note, that many languages are just under translation, and the untranslated parts are still in English. Also some translated parts might be outdated. The translation teams are open to contributions.

Documentation for PHP 4 has been removed from the manual, but there is archived version still available. For more informations, please read Documentation for PHP 4.

Formats	Destinations
View Online	English, Brazilian Portuguese, Chinese (Simplified), French, German, Japanese, Romanian, Russian, Spanish, Turkish
Downloads	For downloadable formats, please visit our <u>documentation downloads</u> page.

More documentation

- If you are interested in how the documentation is edited and translated, you should read the Documentation HOWTO.
- · PHP-GTK related documentation is hosted on the PHP-GTK website.
- Documentation of PEAR and the various packages can be found on a separate server.
- You can still read a copy of the original PHP/FI 2.0 Manual on our site, which we only host for historical purposes. The same applies to the PHP 3 Manual, and the PHP 4 Manual.

boas práticas

As provas de certificação são elaboradas levando em consideração as melhores práticas sugeridas pela comunidade de cada linguagem.

O que avaliamos?

nível de conhecimento

Para reconhecer os melhores em cada área, as provas exigem que o profissional tenha um nível de conhecimento elevado.

aplicação real

Todas as questões são elaboradas levando em consideração soluções práticas para melhorar o ecosistema de desenvolvimento entre os profissionais.

A prova de boas práticas em PHP foi completamente baseada em recomendações de boas práticas definidas pela comunidade internacional através das PSRs. Ela exigirá um alto nível de conhecimento destas recomendações.

A Prova!

- ➤ O exame é em Português e Gratuito
- > consiste em 20 questões geradas aleatoriamente
- > As questões são baseadas em: Design Patterns, SOLID, e Padrões PSR
- Questões que consistem de um nível mais avançado
- > Tem duração de 40 minutos
- > Resultado no final do exame

Passei na Prova, e Agora?

➤ A certificação não é oficial, porém você é reconhecido pela empresa

> Você pode utilizar o badge do Imasters PHP Certified Professional

- > Você é adicionado na página de Profissionais Certificados
- > Recebe certificado autenticado pela Imasters
